

PLANET HOLLYWOOD

Crown Complex - 1 Clarendon Street
Southbank, Victoria, Australia

OVERVIEW: Restaurant
PROJECT VALUE: \$0.5M
ROLE: Builder

DESCRIPTION

As the Planet Hollywood chain says iconic destinations deserve big movie events.

The Planet Hollywood restaurants surround patrons with a unique experience of the magic of Hollywood. It's an exciting world of movie and television costumes, set pieces, props and more.

Baracon Construction was fortunate to be engaged 'one on one' by Planet Hollywood management at Crown Casino in Melbourne to carry out renovations to the existing facility.

Much of the work was carried out after hours with a considerable amount of the work prefabricated off site.

Dust control measures were employed to ensure the hygienic environment of the restaurant was maintained whilst work was carried out.

Much of the display merchandises including a hat and glove donated by Michael Jackson had to be temporary relocated whilst the area was being revamped.

The works also included the provision of additional seating and extension of the main bar area.

The project was finished on time and within budget, a relationship with the management of the local franchise meant ongoing works over the following years.
